

REMARKS

Claims 1, 3-5, 7, 11, 13, 17-19, 29, 37, 40, 42, 46, 56-58, 60-63, 67-68, and 70-72, as amended, are pending in this application for the Examiner's review and consideration. Claim 1 has been amended to include the features of claim 69, which has been deleted. Claims 40-42 and 70 have also been deleted to be consistent with amended claim 1. Claim 37 has also been amended to more specifically recite the preferred components of the invention. As no new matter is introduced by any of these changes, they should all be entered at this time.

The claims are now directed to preferred compositions of the invention which are further distinguishable from the cited references. Thus, it is believed that the entire application is now in condition for allowance, early notice of which would be appreciated.

Respectfully submitted,

Allan A. Fanucci (Reg. No. 30,256)
